

Enterprise Cloud ERP

A comprehensive, multi-tenant application designed to handle all aspects of enterprise operations. Next-generation features built for scale.

Multi-Tenancy & Admin

- ◆ **Company Management:** Support for multiple tenants in a single database.
- ◆ **Subscription Plans:** Dynamic allocation based on subscription tiers (Core, Plus, Enterprise).
- ◆ **Role-Based Access:** Customizable roles with fine-grained permissions.
- ◆ **Audit Logging:** System-wide tracking (who, what, when) for security.
- ◆ **Approval Workflows:** Multi-step rules for sensitive operations.

HR & Payroll

- ◆ **Employee Profiles:** Directory, custom fields, and self-service updates.
- ◆ **Attendance:** Real-time clock-in/out with GPS/IP verification.
- ◆ **Leave & OKRs:** Track time off, objectives, and key results.
- ◆ **Payroll Processing:** Dynamic salary bands, tax config, and automated payslips.

Financial Accounting

- ◆ **General Ledger:** Complete chart of accounts and double-entry journals.
- ◆ **AP & AR:** Manage vendor bills, customer invoices, and payments.
- ◆ **Banking:** Account management and automated reconciliation.
- ◆ **Fixed Assets:** Automated depreciation schedules.
- ◆ **Multi-Currency & Tax:** Dynamic rates and electronic tax returns.

Sales & CRM

- ◆ **Lead Pipeline:** Track prospects to close with stage management.
- ◆ **Orders & Quotes:** Generate quotes and convert to sales orders.
- ◆ **Activity Logs:** Track tasks, calls, and emails tied to clients.
- ◆ **Sales Targets:** Monitor KPI targets for the sales team.

Point of Sale (POS)

- ◆ **Retail** Complete fast POS Interface: interface for cashiers.
- ◆ **Shift Management:** Track cash drawers and discrepancies.
- ◆ **Sales & Returns:** Apply discounts, print receipts, and manage returns.
- ◆ **Daily Reporting:** Automated end-of-day Z-reports.

Inventory & Manufacturing

- ◆ **Inventory Tracking:** Real-time stock, multi-warehouse support.
- ◆ **Bill of Materials (BOM):** Material requirements and cost analyses.
- ◆ **Work Orders:** Schedule and track manufacturing runs.
- ◆ **Quality & Maintenance:** Enforce quality checks and preventative maintenance.

Collaboration & Comms

- ◆ **Team Chat:** Restricted department rooms & custom groups.
- ◆ **Direct Messaging:** Private 1-on-1 messaging.
- ◆ **Announcements & Polls:** Broadcast news and run company-wide voting.
- ◆ **Knowledge Base & LMS:** Internal Wiki and staff training courses.

Enterprise Operations

- ◆ **Procurement:** Manage Vendors, Purchase Orders, and RFQs.
- ◆ **Helpdesk:** Internal ticketing system with collaborative threads.
- ◆ **Intercompany Txns:** Automated tracking between sister entities.
- ◆ **Compliance:** Manage regulatory checks and filing deadlines.
- ◆ **Document Vault:** Secure centralized storage with visibility scopes.
